

AUTO\$aver

round up and save

Auto\$aver is a feature offered on all HCCU checking accounts upon request!

The Auto\$aver feature helps to automate your savings by rounding up your everyday debit card transactions to the nearest dollar and depositing the difference into the HCCU savings account of your choice.* Auto\$aver funds are accumulated throughout the day and transferred to savings in a single nightly transfer.

If your checking account balance is getting low, don't worry that Auto\$aver will overdraw your account. Auto\$aver transfers will not occur if transfer of funds would result in a checking account balance of less than \$100. If your available checking balance drops to (or below) \$100, transfers will show as \$0.00 until the available checking balance is at or above \$100. 01. Then daily transfers will resume.

You can enroll by simply filling out the form below and opting into the program. Completed request forms can be dropped off or mailed to 1424 Walton Way Augusta GA 30901, or emailed to hccumbrsvc@augusta.edu. Verbal enrollment is also available. Simply give us a call at 706-434-1600 and we will enroll you in the Auto\$aver program once your identity has been verified.

*The savings designated to receive Auto\$aver transfers must be under the same member number as the selected checking account.

Yes, I want Health Center Credit Union to round up purchases made on my HCCU debit card to the nearest dollar and deposit the difference into the HCCU savings account named below.
